Bead Bags

DESCRIPTION: BEAD BAGS provide fresh smelling air to an entire area in just minutes. BEAD BAGS work best where there is air flow through the bag itself. BEAD BAGS are primarily designed to clip into any HVAC system, however any malodorous area may be freshened with BEAD BAGS. The unique packaging bag provides clean, safe and easy to handle installations. Used bags and beads can be thrown into the 'plastic recycle' bin, since everything in the package is environmentally friendly and recyclable. BEAD BAGS modern technology gives extended and even release of the air freshener over a prolonged period of time. BEAD BAGS are available in various specific fragrances or assorted cases, the choice is yours.

ADVANTAGES: 1) Unique bag package eliminates contact of beads with skin. 2) Yields subtle yet long lasting results. 3) Each bag is a complete deodorization package in and of itself. 4) Quickly replaces foul air with clean fresh smelling air. 5) The protective bag prevents any possible staining from the beads themselves. 6) Available in the following fragrances; Orchard Spice, Mountain Air, Cherry, Watermelon, Vanilla, Cinnamon, Honeysuckle or Green Apple.

AREAS OF USE: HVAC units, window air conditioners, air vents, overhead fans, vacuum cleaner bags, dumpsters, cars, busses, trucks, locker rooms, kennels, sewer manholes, barns, trash cans, landfills, health clubs, clothes dryers and wherever a clean fresh smell is desired. valves, hinges, winches,
