Germ B Gone

DESCRIPTION: GERM B GONE is a unique hand sanitizing wipe, combining a non-abrasive towelette that is skin friendly with antiseptic and conditioning agents. GERM B GONE instantly kills, absorbs and removes disease causing germs and bacteria from the skin. GERM B GONE is formulated with Aloe and Vitamin E to soften and condition skin with each application. GERM B GONE should be used to supplement regular hand washing procedures. GERM B GONE dries quickly, leaves no residue and hands feeling fresh and conditioned. GERM B GONE helps ensure personal protection from organisms that cause disease and sickness through cross contamination. GERM B GONE kills 99.9% of disease causing germs and bacteria found on skin.

ADVANTAGES: 1) Helps reduce the risk of infection from disease. 2) Reduced alcohol formula that will not dry out your hands. 3) Pre-measured and pre-moistened wipes ensures even formula saturation and measured release of formula to hands. 4) No unwanted and wasteful dripping from the hands associated with gel sanitizers. 5) Kills gram positive and gram negative germs and bacteria instantly. 6) Contains Aloe and Vitamin E to condition and moisturize skin.

AREAS OF USE: Designed for use in all work places for plumbers, electricians, health care workers, office staff, cities, counties, schools - everyone with hands can use this product!
