Plug Away

DESCRIPTION: *PLUG AWAY* is a powerful, super-potent caustic drain opener and maintainer. *PLUG AWAY* attacks organic matter, such as rags, hair, paper and grease, yet does not contain strong acids, which may be harmful to plumbing. *PLUG AWAY* is heavier than water, which enables it to seek out and eliminate the problem area. Since *PLUG AWAY* contains no acids, it is completely odorless when used. *PLUG AWAY* quickly opens grease clogged pipes by converting problem grease into a liquid soap which washes away freely. *PLUG AWAY* helps keep drains open, thus reducing malodors generated by rancid material.

ADVANTAGES: 1) Quickly dissolves rags, hair, paper, grease and any other organic matter. 2) Opens clogged drains without any foul sulfuric acid odors. 3) Heavier than water formulation gets to problem area quickly. 4) May be used on a preventative maintenance program. 5) Will not boil or cause excessive heating in pipes.

AREAS OF USE: Schools, hospitals, industrial plants, recreation areas, public restrooms, bus stations, airports, railway stations, nursing homes, municipal buildings, hotels, motels, apartments, restaurants, truck stops, office buildings, golf courses, health spas, warehouses and any other place where clogged drains are a problem.

PRECAUTIONS: Do not use before partially opening drain. Do not stand over and look into drain after applying. Never use product with acid bowl cleaners, sulfuric acid drain openers or any other chemicals. Do not plug opening, or use a plunger or pressurized drain opener while product is in the drain.

CAUTIONS: Avoid contact with eyes, skin and clothing. For eye contact, flush with water for 15 minutes while holding the upper and lower lids open. See a doctor immediately. For skin contact, wash affected area well with soap and water. If irritation persists, see a doctor.

SPECIFICATIONS:

Classification	Liquid drain opener
Color	Red
Odor	Negligible
Flash point	Non flammable
pH	14.0
Solubility in water	100%
Boiling point	291° F
