## Uratic Salt Remover

**DESCRIPTION:** URATIC SALT REMOVER safely removes uratic salt build up from drains and pipes. URATIC SALT REMOVER is a unique blend of acids, designed specifically to attack the crystallization of urine salts within plumbing systems. By dissolving the crystals, URATIC SALT REMOVER helps to deodorize foul smelling urinals and at the same time helps clear slow moving drains. URATIC SALT REMOVER is safe on all plumbing, including PVC and metal pipes. Use of URATIC SALT REMOVER to clean toilets and urinals periodically will help to eliminate foul odors, remove the uratic salt build up and keep restrooms smelling clean.

**ADVANTAGES:** 1) Safely removes uratic salt build up in pipes. 2) Eliminates source of foul odors, not just an odor mask. 3) Pleasant mint fragrance gives immediate odor control. 4) Regular use will help to maintain normal drain flows. 5) Attacks and dissolves other encrustations, such as calcium, concrete, rust and other mineral deposits. 6) Fast acting industrial strength formulation.

**AREAS OF USE:** Industrial plants, warehouses, apartment complexes, hotels, restaurants, factories, schools, day care centers, office buildings, amusement parks, churches, homeless shelters, hospitals, health resorts, golf courses, cemeteries, prisons and in any other place where restrooms exist.

**PRECAUTIONS:** Do not use on any exterior surface (such as marble) that can be affected by acidic materials. Do not mix with any other products.

**CAUTIONS:** Avoid contact with eyes, skin and clothing. For eye contact, flush with water for 15 minutes while holding the upper and lower lids open. See a doctor. For skin contact, wash affected area well with soap and water. If irritation persist, see a doctor.

**SPECIFICATIONS:**

Classification	Acidic cleaner
Color	Clear
Odor	Mint
Flash point	None
pH	1.0 - 0.5
Solubility in water	100%
