Blizzard 2010

DESCRIPTION: *BLIZZARD 2010 is a special blend of silicone and wax that provides a slick, non-stick coating that prevents ice and snow from sticking to plows, shovels and other snow removal equipment. Once a surface is treated with BLIZZARD 2010 it also becomes water and rust resistant. BLIZZARD 2010 provides superior release action and lubrication to reduce drag and sticking of many materials to other metal surfaces. Easy to use, simply spray BLIZZARD 2010 on snow removal equipment to keep snow and ice from building up on blades, mold boards and wings. BLIZZARD 2010 is also excellent for use on road signs to keep snow or ice from sticking and allow for easy readability. BLIZZARD 2010 helps increase the efficiency of snow removal, material handling, turf maintenance and road equipment.*

ADVANTAGES: *1) Increases plow efficiency. 2) Helps prevent salt corrosion. 3) Protects metal, fiberglass, painted and plastic finishes. 4) Keeps snow and ice from sticking to snow removal equipment, plows, shovels and blades. 5) In springtime, spray on blades and under decks of grass cutters and mowers to keep grass from sticking to blades and undercarriage. Lessens drag and increases work efficiency.*

AREAS OF USE: *Plow blades, shovels, mower blades, road equipment, signs and anywhere else a non-stick coating is desired.*

SPECIFICATIONS:

| | |
|-----------------------------|---------------------------|
| Classification | Aerosol |
| Color | Clear yellow spray |
| Odor | Not Available |
| Flash point (concentrate) | -156° F Estimated |
| Boiling point (concentrate) | Not Available |
| Flammability | Extremely flammable spray |
| Spray pattern | Powerful mist |
