Eco Seal

DESCRIPTION: ECO SEAL is a uniquely formulated, environmentally friendly sealer designed for use in waterless no flush urinals. ECO SEAL is a non-hazardous trap sealer that is lighter than water and urine, which keeps the seal in place. ECO SEAL creates a non-soluble seal of a deodorizing liquid in the trap. ECO SEAL also prevents unwanted sewer vapors from backing their way into the air. ECO SEAL has been compounded with a pleasant cherry fragrance to give instant and long lasting odor relief. ECO SEAL also works well at solving odor problems from dried out traps, keeping them wet and odor free.

ADVANTAGES: 1) Seals and deodorizes waterless no flush urinals, preventing and eliminating odor problems. 2) Treat each urinal with 3 ounces of product per every 1500 uses, approximately every 2 weeks depending on activity level. 3) Economical to use, 1 quart treats one urinal for about 5 months. 4) Completely safe on all plumbing fixtures. 5) A safe drain trap liquid for dried out and smelly drains. 6) Long lasting results as the product will not evaporate or freeze. 7) Non-hazardous, biodegradable and safe to the user.

AREAS OF USE: Waterless no flush urinals, toilets, floor and shower drains, sinks, condensate drains and other unprimed, dried out or unused drains.

SPECIFICATIONS:

Classification	liquid deodorizer
Color	Green
Odor	Cherry
Flash point	> 350° F
Boiling point	> 375° F
Solubility in water	Negligible
Biodegradability	100%
