## Enviro Plug Away

**DESCRIPTION:** ENVIRO PLUG AWAY is a true breakthrough drain opener. ENVIRO PLUG AWAY offers the same powerful performance of a super-potent caustic drain opener but is NON IRRITATING to the skin. ENVIRO PLUG AWAY attacks organic matter, such as rags, hair, paper and grease, yet does not contain strong acids, which may be harmful to plumbing. ENVIRO PLUG AWAY has a thickened formula that is heavier than water, so it sinks to the point of obstruction to begin working quickly. ENVIRO PLUG AWAY is completely odorless when used. ENVIRO PLUG AWAY quickly opens grease clogged pipes by converting problem grease into a liquid soap which washes away freely. ENVIRO PLUG AWAY helps keep drains open, thus reducing malodors generated by rancid material.

**ADVANTAGES:** 1) Has a high ph (>13) which enables it to work as well as PLUG AWAY but does not irritate skin. 2) Quickly dissolves rags, hair, paper, grease and any other organic matter. 3) Opens clogged drains without any foul sulfuric acid odors. 4) Heavier than water formulation gets to problem area quickly. 5) May be used on a preventative maintenance program. 6) Will not boil or cause excessive heating in pipes.

**AREAS OF USE:** Schools, hospitals, industrial plants, recreation areas, public restrooms, bus stations, airports, railway stations, nursing homes, municipal buildings, hotels, motels, apartments, restaurants, truck stops, office buildings, condominiums, golf courses, health spas, warehouses and any other place where clogged drains are a problem.

### SPECIFICATIONS:

<b>Classification</b>	<b>Liquid drain opener</b>
<b>Color</b>	<b>Colorless</b>
<b>Odor</b>	<b>Negligible</b>
<b>Flash point</b>	<b>Non flammable</b>
<b>pH</b>	<b>13.4</b>
<b>Solubility in water</b>	<b>100%</b>
<b>Biodegradable</b>	<b>100%</b>
