Nexgel

DESCRIPTION: NEXGEL is a highly concentrated blend of all organic and biodegradable solvents specially formulated as an organic engine degreaser. NEXGEL sprays to a unique gel base, which allows it to cling to vertical surfaces, quickly penetrating and emulsifying tar, asphalt, grease, creosote and oils. After cleaning, NEXGEL may be easily washed off with water or solvent. NEXGEL is safe to use, contains NO OZONE DEPLETING compounds, and does not contain any chlorinated or fluorinated solvents. NEXGEL packs the power of yesterday's harsh solvents, with the environmental concerns of today.

ADVANTAGES: 1) The unique gel base provides superior contact time for quick and easy cleaning. 2) Dissolves oil, tar, grease, creosote, dirt, stains and road oil on contact. 3) Simple to use, simply spray on the surface, wait and wash off. 4) Safe on all gasoline and diesel engine compartment surfaces, metal, concrete, brick and stone. 5) Gelling action allows for easy degreasing of vertical surfaces.

AREAS OF USE: Automotive shops, truck shops, motorcycle shops, construction equipment, earth moving equipment, golf course vehicle maintenance shops, cemetery maintenance shops, forklift maintenance shops, roofing equipment and more.

SPECIFICATIONS:

Classification	Aerosol degreaser
Color	Brown gel
Odor	Aromatic solvent
Flash point (concentrate)	150°F
Aerosol flammability	Flammable spray
Propellant	Propane- isobutane
Solubility in water	100%
Biodegradability	100%

Certified 100% Women-Owned Small Business
