

## Industrial Products

### ASAP

Anti-Seize w/ Applicator Pad

**DESCRIPTION:** ASAP is a high quality anti-seize compound that makes the removal of nuts and bolts easy, even after exposure to extremely high temperatures (up to 2100°F). Our unique applicator allows the compound to be quickly applied to threads without dripping, mess or waste. Now you can get a tough job done with clean hands. ASAP also provides outstanding protection against rust and corrosion on any type of metal, and insures easy disconnection for bolts, spark plugs, threaded fittings, and bushings. Reduces waste, dripping and mess. ASAP is non-flammable and waterproof. Prevents galling and seizing.

Available in Aluminum and Copper

**ADVANTAGES:** 1) Contains no chlorinated solvent. 2) Makes disassembly easier by reducing torque requirements. 3) Protects and provides excellent high temperature lubrication to 2100°F. 4) Excellent resistance to damp atmospheres, steam and salt spray. 5) Will not harden, separate or fuse to any metal surface. 6) Meets or exceeds Federal Mil Spec MIL-PRF-907F. 7) Prevents galling, seizing, pitting, fretting, corrosion and distortion. 8) Available in convenient to use pressure driven cans with applicator pad.

**AREAS OF USE:** Industrial machinery, construction equipment, chemical processing equipment, marine hardware, vehicle fleets, assembly lines, refineries, municipalities, conveyors, boiler rooms, compressors, turbines, heat exchangers, and much more.

#### SPECIFICATIONS:

<b>Classification</b>	<b>Lubricant</b>
<b>Color</b>	<b>Gray or Copper</b>
<b>Odor</b>	<b>Mild solvent</b>
<b>Flash point</b>	<b>&gt; 350° F</b>
<b>Solubility in water</b>	<b>Negligible</b>
<b>Total VOC</b>	<b>0.5%</b>
