

Brake Clean

DESCRIPTION: BRAKE CLEAN is a highly refined, ultra pure solvent designed to provide maximum brake parts degreasing and cleaning. BRAKE CLEAN contains NO OZONE DEPLETING chlorinated solvents. BRAKE CLEAN quickly and easily removes grease, oily dirt and contaminants from metal parts, including brake fluid from linings, pads and drum cylinders and springs without disassembling the unit. BRAKE CLEAN dries quickly, leaving no film or residue. BRAKE CLEAN helps reduce glazing and gumming on brake pads and linings. BRAKE CLEAN combines yesterday's cleaning power with today's environmental concerns.

ADVANTAGES: 1) Environmentally aware formulation, containing NO CHLORINATED OR FLUORINATED SOLVENTS. 2) Quickly removes brake fluid, grease and oil without flooding or lengthy soaking. 3) Helps reduce wear on parts. 4) Contains no lead, phosphorous or silicone. 5) Dries quickly, leaving no residue or film. 6) High purity cleaning solvent.

AREAS OF USE: As a bench top parts cleaner, primarily designed for cleaning and degreasing of most metal surfaces, including but not limited to all types of brakes, parts and linings. Designed for industrial and professional use only.

SPECIFICATIONS:

Classification	Liquid solvent cleaner
Color	Clear
Odor	Characteristic solvent
Specific gravity	0.73
V.O.C.	660 gpl
Flash point	7° F (T.C.C.)
Solubility in water	0%
