

Bowl Bars

DESCRIPTION: BOWL BARS are uniquely designed rim cages that provide a continual cleaning solution that leave the surrounding area smelling fresh. BOWL BARS have a unique “after flow” holder, which releases the cleaner, deodorizer and fragrance as the toilet bowl refills without running down the side of the bowl or streaking. BOWL BARS contain enzyme producing, odor-eating biocultures that digest organic material and waste, keeping the drains running freely. BOWL BARS fit most toilets and deodorize up to 1500 flushes (30 days normal operation). The compound inside gradually dissolves, coloring the standing bowl water a fresh aqua as it imparts a nice fragrance. Replace when the water is no longer colored. Blocks are acid-free, water-soluble and 100% biodegradable.

ADVANTAGES: 1) Helps control and eliminate “ring around the bowl”. 2) Provides continuous released cleaning and freshness. 3) Contains cleaner, descaler and water softeners. 4) Deodorizes with every flush. 5) Loaded with enzyme producing bacteria for drain maintenance. 6) Completely biodegradable. 7) Contains NO paradichlorobenzene.

AREAS OF USE: Restrooms everywhere, maintenance shops, hotes, rest stops, offices, hospitals, schools, day-care centers, etc.

SPECIFICATIONS:

Classification	Solid bowl block
Color	Blue
Odor	Fresh
Flash point	Non flammable
Solubility in water	100%
Biodegradability	100%
