

Industrial Products

AS17BT

Anti-Seize

DESCRIPTION: ANTI SEIZE AS17BT is an extreme temperature and pressure sealant and lubricant that protects metal from galling, seizing or pitting. AS17BT contains no chlorinated solvents, yet still sets up quickly. AS17BT is completely non-corrosive and inert to rubber. ANTI SEIZE prevents corrosion and distortion of threaded, keyed, splined and press fitted assemblies. AS17BT is highly resistant to moisture, weather, chemical fumes, salt spray and steam. AS17BT allows tighter, more vibration proof seals using less torque, while making disassembly easier. AS17BT is highly effective on a broad group of metals with metal to metal and metal to rubber contact

ADVANTAGES: 1) Contains NO CHLORINATED SOLVENTS. 2) Makes disassembly easier by reducing torque requirements. 3) Protects and provides excellent high temperature lubrication to 2011°F. 4) Excellent resistance to steam and salt spray. 5) Will not harden, separate or fuse to any metal surface. 6) Meets or exceeds Federal Mil Spec MIL-A-907D. 7) Prevents galling, seizing, pitting, corrosion and distortion. 8) Available in convenient to use brush top cans.

Areas of Use: Industrial machinery, construction equipment, machinery, chemical processing equipment, vehicle fleets, assembly lines, refineries, municipalities, power generating plants, conveyors, boiler rooms, compressors, turbines, heat exchangers, manifolds, exhaust systems and much more.

SPECIFICATIONS:

Classification	Lubricant
Color	Gray
Odor	Mild Solvent
Flash point	> 380° F
Solubility in water	Negligible
Total VOC	0%

Certified 100% Women-Owned Small Business

Dedicated to Integrity • Reliability • Quality Products • Friendly Service

Our Products are Made in the USA and we Proudly Support Veteran Endowments
