LLD-19

DESCRIPTION: LLD-19 Liquid Laundry Detergent is a combination of the newest developments in chemistry. This formula contains anionic and non-anionic synthetics combined with selected phosphates, alkalies and Borax compounded to cover most specialized needs. LLD-19 is a powerful laundry detergent for those with the highest standards for cleanliness. Safe for colors and whites. Special water softening ingredients condition water, so LLD-19 outperforms other detergents even in hard water.

ADVANTAGES: 1) Leaves clothes clean and fresh. 2) Works in both standard and HE machines. 3) Low sudsing formula rinses cleaner. 4) Special agents in the detergent trap the soil in the wash water, so it rinses away and doesn't redeposit on your clothes.

AREAS OF USE: For top loading washers: Use 3/4 to 1 cup per load. For washer/dryer combinations: Use 3/4 cup per load. For front loading washers: Use 1/2 cup per load. For spinner or wringer machines: Use 1 cup for first load. For additional loads, use 1/3 cup or more each time water is reused.

SPECIFICATIONS:

Classification	Liquid
Color	Cloudy Blue
Odor	Lemon / Citrus
Flash point	None
pH	9-10
Solubility in water	Complete
