Lil Lightning

DESCRIPTION: LIL LIGHTNING is a unique, highly concentrated sulfuric acid drain opener that contains a powerful odor masking blanket. LIL LIGHTNING completely clears clogged drains, pipes and waste lines. LIL LIGHTNING disintegrates paper, rags, hair, tobacco, tea bags, sanitary napkins, lime and scale deposits, food scraps and other organic matter. LIL LIGHTNING even melts grease. LIL LIGHTNING is manufactured from concentrated virgin sulfuric acid and contains a unique odor suppressant blanket. This odor blanket floats on top of the sulfuric acid at all times, limiting the odors that generally arise when working with most sulfuric acid drain openers. LIL LIGHTNING quickly tackles the toughest clogs, saving time and money. Please read all directions and cautions on container before using.

ADVANTAGES: 1) High concentration of acid causes quick penetration to where the clog exists. 2) Contains specialized protective corrosion inhibitors. 3) Will not harm septic tanks, cesspools, drainage fields and leaching systems when properly used. 4) Packed in convenient to use pint containers for a one shot application. Designed to use the entire bottle at once, eliminating the chance of spillage. 5) Sulfuric acid will not dissolve styrofoam, certain plastics and other polymeric materials. The solvents in the odor blanket WILL dissolve these materials. These solvents act as a chaser to get the materials that the sulfuric acid leaves behind.

AREAS OF USE: Sinks, showers, bathtubs, floor drains, toilets, urinals, drinking fountains, laundry tubs, cesspools, septic tanks and grease traps.

SPECIFICATIONS:

Classification	Acidic drain opener
Color	Dark brown
Odor	Aromatic
Flash point	None
pH	< 1.0
Solubility in water	~95%
