Ice Off Arctic Blue

Areas of Use: Driveways, walkways, roads, streets, highways and more.

DESCRIPTION: *Arctic Blue™ Icemelter helps control ice and snow dependably, economically and safely, Works down to -15°C (+5°F). A basic blue icemelter that is economical and effective on snow & ice, while being very easy to use. Arctic Blue™ Icemelter provides instant traction due to its granular format with sharp edges. Immediately upon spreading, it works to prevent slips and falls. Arctic Blue™ Icemelter does not contain calcium chloride, so no oily residue is left behind to track into buildings. Icemelter may be applied at the beginning of a storm to prevent hard ice accumulations. Arctic Blue™ Icemelter is a product comprised of Sodium Chloride and Potassium Chloride that has a blue dye, making even distribution easy and obvious to the end user.*

ADVANTAGES: *1) Effective to -15°C (+5°F). 2) Easy to use. 3) Instant traction. 4) Leaves no oily residue. 5) Requires no special handling. 6) Unique blue color.*

SPECIFICATIONS:

<i>Classification</i>	<i>Solid</i>
<i>Color</i>	<i>Blue granules</i>
<i>Odor</i>	<i>Odorless</i>
<i>Boiling point</i>	<i>2575° F</i>
<i>Solubility in water</i>	<i>35.7 g/100mL</i>
