Carb Clean

DESCRIPTION: CARB CLEAN is a powerful combination of concentrated solvents, formulated to remove dirt, gum and varnish deposits that tend to build up on the moving and sealing surfaces of engine carburetors, heat valves and automatic chokes. Periodic and regular use of CARB CLEAN on all applicable engines, will help keep them clean, fuel efficient and trouble free. CARB CLEAN features a forceful spray pattern which helps the cleaning process, eliminating costly disassembly. When used properly, CARB CLEAN will not affect the exhaust oxygen sensor or the catalytic converter.

ADVANTAGES: 1) Formulated for high performance yet contains NO CHLORINATED SOLVENTS. 2) Helps engines by providing easier starting, eliminating stalling and rough idling. 3) Helps to decrease harmful exhaust emissions. 4) Quickly dissolves gum, resin, varnish, grease and carbon deposits. 5) Cleans jets, floats and butterfly valves quickly and easily. 6) Dries quickly, leaving a residue free surface.

AREAS OF USE: Engines for all types of vehicles - carburetor valves, automatic chokes, choke linkages, accelerator linkages, PVC valves, vacuum pistons, thermostatic coils, manifold heat control valves, crankcase ventilation valves and much more.

SPECIFICATIONS:

Classification	Aerosol solvent
Color	Clear liquid
Odor	Characteristic solvent
Flammability	Flammable spray
Spray pattern	Powerful stream
Solubility in water	Slight

Certified 100% Women-Owned Small Business

Dedicated to Integrity • Reliability • Quality Products • Friendly Service

Our Products are Made in the USA and we Proudly Support Veteran Endowments
