

## Industrial Products

### Undercoat

**DESCRIPTION:** UNDERCOAT is a unique spray which undercoats, deadens sound, prevents rust and seals most surfaces. UNDERCOAT provides a durable, flexible, rubberized film which seals and acoustically reduces unwanted vibration and sound. UNDERCOAT protects metal parts against the harmful effects of water, salt, battery acids and most other chemicals. UNDERCOAT stays pliable in the winter cold, yet will not sag, melt or drip in the heat of summer. UNDERCOAT resists cracking, peeling and abrasion. UNDERCOAT contains NO 1,1,1-trichloroethane, NO hexane and NO CFC's.

**ADVANTAGES:** 1) Special rubberizing agents provide superior bonding, flexibility and sound resistance. 2) Reduces squeaks and muffles noise of A/C ducts, metal walls, metal sinks and piping. 3) Seals electrical junction boxes from dust, moisture and chemical fumes. 4) Seals out rust and corrosion. 5) Seals tree pruning wounds. 6) May be used as a roof patching compound and to seal rain gutter joints.

**AREAS OF USE:** Auto and diesel repair shops, garages, taxi companies, construction companies, machine shops, equipment manufacturers, air conditioning maintenance, truck fleet and forklift maintenance, farm equipment and much more.

#### SPECIFICATIONS:

<b>Classification</b>	<b>Solvent based aerosol</b>
<b>Color</b>	<b>Black</b>
<b>Odor</b>	<b>Solvent odor</b>
<b>Flammability</b>	<b>Extremely flammable spray</b>
<b>Propellant</b>	<b>Hydrocarbon</b>
<b>Solubility in water</b>	<b>Immiscible</b>
