Leak B Gone

Areas of Use: Any built up or flat roof surface on office buildings, apartments, garages, out buildings and more.

DESCRIPTION: Can be used to stop leaks during a rain storm or melting of snow and ice. LEAK B GONE is an all natural compound, designed for temporary or emergency top sealing of small leaks in built up/flat top roofs. LEAK B GONE will temporarily stop the leak, until a permanent patch can be applied. Prolong the life of your roof by stopping the leak and preventing water from seeping through your insulation and causing damage to interior surfaces. Simply pour approximately a 1/2 inch blanket of LEAK B GONE over suspected area of leak, product will migrate with water to nearby leaks. If leak does not stop immediately, add more until it stops. LEAK B GONE can be applied through standing water if poured slowly and carefully. LEAK B GONE forms a temporary patch, a permanent patch should be applied as soon as possible.

ADVANTAGES: 1) Works in rain and standing water. 2) Product migrates to help you find the leak. 3) Helps prevent further damage.

SPECIFICATIONS:

Classification	Granular, powder
Color	Gray
Odor	N/A
Flash point	N/A
Boiling point	N/A
Solubility in water	Nil
