RatX Bait Disks

DESCRIPTION: Formulated entirely from non-toxic food materials, RatX™ is a revolutionary new product for rat and mice control. RatX™ is NOT a poison, it is an effective rat and mouse killer that provides you with the efficacy you need and the peace of mind you've always wanted. 100% safe for people, pets and wildlife with NO RISK of secondary kill, RatX™ will help you achieve rapid eradication of rat and mouse infestations. Designed for both indoor and outdoor use. RatX™ is a patented EPA FIFRA 25(b) minimum risk pesticide. After ingestion, dehydration commences causing blood thickening & circulatory collapse, whereby rats become lethargic, retreat to their burrow, lapse into a coma and die in their sleep. RatX™ then continues to work, absorbing all bodily fluids resulting in dehydration from the inside out causing mummification, reducing the smell up to 90%.

ADVANTAGES: 1) Safe for people, pets and wildlife. 2) No risk of resistance or secondary poisoning. 3) No special requirements for transport, handling, storage or disposal. 4) Safe for the environment, fully biodegradable.

AREAS OF USE: Housing complexes, forestry & woodland management, food processing, packing & storage areas, industrial & retail buildings, institutions, hospitals, schools, parks & other public areas.

- ◆ Safe for People Pets and Wildlife
- ◆ Safe for Livestock and Birds
- ◆ NO Risk of either Primary or Secondary Poisoning
- ◆ NO risk of resistance
- ◆ NO SPECIAL REQUIREMENT for transport, handling, storage or disposal
- ◆ NO risk of contamination of crops or food
- ◆ Safe for the environment—fully biodegradable

SPECIFICATIONS:

Classification	Solid, pellets
Color	Tan to grey
Odor	Odorless
VOC	0%
Solubility in water	7.4-9.5%
Biodegradability	100%

Certified 100% Women-Owned Small Business
