Battery Saver

DESCRIPTION: BATTERY SAVER provides a tough, durable, non-tacky and flexible coating for battery terminals, cables, carriers and clamps. BATTERY SAVER adheres to all types of surfaces and resists the corrosive effects of battery acid, moisture, dirt, grease and oil. BATTERY SAVER provides an airtight and waterproof, insulated coating that minimizes leakage and extends battery life. BATTERY SAVER prevents hard starting, current loss and battery failure.

ADVANTAGES: 1) Long term corrosion protection. 2) Remains flexible. 3) Will not crack, chip or peel. 4) Assures continued high voltage output. 5) Protects instantly.

AREAS OF USE: Automobiles, buses, taxis, trucks, aircrafts, boats, golf carts, tractors, trailers, postal vehicles, fork lifts, battery back up systems, construction equipment, agricultural equipment, marine equipment and any equipment requiring acid batteries.

SPECIFICATIONS:

Classification	Aerosol
Color	Dark Brown
Odor	Solvent
Boiling Point	N/D
Flash point (concentrate)	-156°F
Flammability	Flammable Aerosol
Solubility in water	Not Available
