

AIR CARE CLIP **Air Freshener Clip**

DESCRIPTION: AIR CARE CLIP can be used in restrooms, to eliminate odors and create freshness. Containing 50x more air freshening than standard rimsticks, the AIR CARE CLIP gradually releases air freshener over 30 days. The clip works on the outside of bowls, (where the seat goes down and stays down), the tops of restroom partitions, or the side of tanks to combat odors and create freshness. The clip secures in place and shrinks to fit as fragrance evaporates, so it doesn't move after placement. AIR CARE CLIP is 100% recyclable, doesn't dissolve when wet, or pollute the water. Available in Mint, Mango and Cotton Blossom.

ADVANTAGES: 1) Freshens stale air without sprays or residue. 2) Contains NO OZONE DEPLETING ingredients and is VOC compliant in all 50 states. 3) Effortless odor control for 30 days.

DIRECTIONS: Place an AIR CARE CLIP on the side of the bowl, tank or on the partition.

AREAS OF USE: Can be used in any restroom anywhere. Clip on the edge of bowl, on partition, on air conditioning vent or anywhere else for freshness.

CAUTION: May cause mild skin irritation. Wash hands with soap and water after contact. Do not ingest.

SPECIFICATIONS:

Classification	Liquid infused plastic
Color	various
Odor	Fresh Fragrance
Flash point (concentrate)	Not Applicable
Solubility in water	Insoluble
