

## Industrial Products

### Han-San

**DESCRIPTION:** HAN-SAN is a uniquely formulated gel skin sanitizer. HAN-SAN instantly sanitizes hands without water or towels so it is a perfect on the go solution when hand washing is not an option. HAN-SAN penetrates hard to reach areas that harbor bacteria between the fingers and around finger nails. HAN-SAN contains a special blend of emollients and ethyl alcohol that leaves hands sanitized, smooth and conditioned without any antiseptic smell. HAN-SAN does not dry out the skin. HAN-SAN helps prevent bacterial transfer and reduces hospital acquired infections. HAN-SAN dries in about 15 seconds, leaving hands with a fresh citrus fragrance. HAN-SAN is not a substitute for washing hands, rather HAN-SAN should be used in conjunction with Pro-Line's full line of hand cleaners for all your hand care needs. Available in gallons, 8 ounce bottle with a pump, and 4 ounce bottle with flip top.

**AREAS OF USE:** Hospitals, school and child care personnel, nursing homes, veterinarians, labs, emergency response teams, police and fire personnel, correctional facilities, cashiers, food service workers, plumbers, public works personnel, coroners, shelters, industrial plants and much more.

**ADVANTAGES:** 1) Dispenses a thick gel that penetrates hard to reach areas, killing bacteria on contact. 2) Conditions while sanitizing, without drying out the skin. 3) Helps prevent bacterial transfer and helps to reduce hospital acquired infections. 4) Reduces sickness due to handshakes, and employees sharing phones, computers, tools, break areas and door handles.

#### SPECIFICATIONS:
