Blue Power

DESCRIPTION: BLUE POWER is a premium quality, concentrated butyl cleaner and degreaser. BLUE POWER is a truly heavy-duty concentrated degreaser/cleaner, with dilution rates up to 100:1. BLUE POWER combines a high butyl content, with silicates, wetting agents, rust inhibitors and other special ingredients to form a high-powered product. BLUE POWER will work in any type of water hardness and temperature. BLUE POWER quickly attacks and emulsifies greases and oils as well as decarbonizes. BLUE POWER is not intended for use on aluminum. BLUE POWER has been formulated to use where weaker products have failed.

AREAS OF USE: All applications require different dilutions, consult the directions for a complete listing of recommended solutions for various jobs. Use on walls, floors, doors, lobbies, ovens, trucks, tractors, equipment, boilers, generators, lockers, presses, concrete and many other areas.

ADVANTAGES: 1) Highly concentrated formula, which when diluted to proper solutions becomes very economical to use. 2) Low foaming and rinses easily, may be used in most cleaning/degreasing applications. 3) Special wetting agents provide superior penetration of greases, oils, dirt, grime and more. 4) Complex rust inhibitors allow for safe use on most metal surfaces (not for use on aluminum).

CAUTIONS: Avoid contact with eyes, skin and clothing. For eye contact, flush with water for 15 minutes while holding the upper and lower lids open. See a doctor. For skin contact, wash affected area well with soap and water.

SPECIFICATIONS:

Classification	Liquid cleaner / degreaser
Color	Blue
Odor	Butyl
Boiling Point	220° F
Solubility in water	100%
Biodegradability	100%
