AstroLube

DESCRIPTION: ASTRO LUBE is an all weather, heavy duty, multi-purpose penetrating lithium grease. ASTRO LUBE sprays as a liquid, creeps to lubrication point like an oil, then cures to a thick, water resistant grease. ASTRO LUBE provides non-staining lubrication that guards surfaces against rust and corrosion. ASTRO LUBE is heat stable to 500° F and holds up under high shock loads. ASTRO LUBE penetrates, lubricates, prevents rust and oxidation, and yet contains no ozone depleting chlorinated solvents. ASTRO LUBE is the “next generation’s” solution to lubrication.

ADVANTAGES: 1) A liquefied lithium lubricant that penetrates into gears and mechanisms then sets up to a thick lithium grease. 2) Provides long lasting resistance to water, detergents, acids, oxidation, dirt and salt spray. 3) Extreme temperature (from -60° F to +500° F) and high pressure resistance. 4) Contains no ozone depleters, or any chlorinated or fluorinated solvents. 5) Cleans and lubricates in one application.

AREAS OF USE: Recommended for use on hoists, threads, rollers, cams, slide bearings, O-rings, conveyors, chain drives, fittings, linkages, wire rope, ovens, dryers, gears, valves, pumps, winches, manifold heat valves, hinges, winches, cranes, cables, pulleys, rollers and anywhere else an exterior grease may be required.

SPECIFICATIONS:

Classification	Aerosol lubricant
Color	White
Odor	Characteristic solvent
Grease base	Lithium
Flash point (concentrate)	51° F (T.O.C.)
Flammability	Extremely flammable spray
Spray pattern	Coarse
Propellant	Liquid petroleum gas
Solubility in water	Slight

Certified 100% Women-Owned Small Business

Dedicated to Integrity • Reliability • Quality Products • Friendly Service

Our Products are Made in the USA and we Proudly Support Veteran Endowments
