Aero Grease

AERO GREASE is an all-weather, heavy duty, multi-purpose lubricant packed in a convenient to use aerosol can. AERO GREASE sprays as a liquid to flush off old contaminated lubricant, creep deeply into working parts, and then set up to a viscous, thick grease, which is capable of clinging to vertical surfaces. Cures to a heavy duty, extreme pressure lithium grease.

After setting up, the grease will not wash away with water or steam and will resist water throw off and heavy shock load. Withstands acid, salt spray and oxidation, and the red color allows for easy visual inspection. AERO GREASE contains special additives to provide superior adhesive, cohesive, extreme pressure and cushioning properties that adhere to metal parts without "throwing off" or "slinging out" while the equipment operates at high speeds.

AERO GREASE penetrates, lubricates and prevents rust and oxidation, and yet contains no ozone depleting chlorinated or fluorinated solvents. Withstands heat up to 500° F.

Great For Use On:

- | | |
|-------------|---------------|
| ⇒ pulleys | ⇒ linkages |
| ⇒ rollers | ⇒ draglines |
| ⇒ gears | ⇒ fittings |
| ⇒ valves | ⇒ winches |
| ⇒ conveyors | ⇒ cranes |
| ⇒ linkages | ⇒ cams |
| ⇒ hoists | ⇒ cables |
| ⇒ springs | ⇒ wire rope |
| ⇒ couplings | ⇒ and more... |
