Bac-Aide

BAC-AIDE is a natural solution of enzyme producing bacteria that gives instant and residual odor control. BAC-AIDE contains 6 strains at a concentration of a minimum of 200 billion colony forming units of specifically designed bacteria that actually digests organic waste. BAC-AIDE is specifically designed for malodors caused by dampness, mildew, mold, food waste, urine, fecal matter, vomit and many other types of organic waste. BAC-AIDE will not stain fabrics, such as carpet or furniture, is biodegradable and non-toxic to animals and humans. BAC-AIDE helps maintain free flowing drains while eliminating odors in soda fountain lines, floor drains, and any other plumbing lines. BAC-AIDE may be sprayed on trees and shrubs as an animal odor suppressant, a deterrent, and to decompose fecal matter. Contains only non pathogenic bacteria and is non-toxic to animals and humans.

Available in Berry, Cucumber Melon, Island Fresh and unscented. Quarts, Gallons, Pails and Drums.
