# Grime Wipes

**GRIME WIPES** are waterless cleaners designed to quickly remove marker, adhesives, label residue, paints, inks, greases, anti-seize, oils, lubricants, roof cement, tar and many more hard to remove soils. They are extremely versatile, and can be used for nearly any job, from cleaning tools, to wiping hands, to cleaning surfaces; they are even great for light graffiti such as pen, marker and even some paints. Our no residue formula can be used to clean eye glasses, safety goggles and will remove paint overspray on windows.

This unique solvent free formula combines powerful cleaning agents with antiseptic and conditioners so that it is tough on dirt but will not dry out or defat the skin. Provides actual one step on the spot heavy-duty hand and parts cleaning. **GRIME WIPES** require no rinsing, leave no residue, condition with each application and contain an antiseptic agent. This heavy duty, industrial strength wipe makes on the spot cleaning **EASY** and **COMPLETE**. Our extra porous textured wipes lift grease and grime from hands and surfaces and hold it in the towel so that it is not re-deposited as you continue wiping. Comes in a large canister with 90 wipes.

Recommended for use by painters, mechanics, plumbers, landscapers, welders, car and truck dealers, utility workers, public transportation workers, manufacturers, city and county employees, print screeners, truckers and more.
