PLUG AWAY

PLUG AWAY is a powerful, super-potent caustic drain opener and maintainer. This professional strength product attacks organic matter like rags, hair, paper soap scum and grease, yet does not contain strong acids which may be harmful to plumbing.

PLUG AWAY is heavier than water, which enables it to seek out and eliminate the problem area. PLUG AWAY quickly opens clogged pipes and slow drains, even past where a snake will reach. When used on a regular PM schedule PLUG AWAY is highly effective at removing the sludge and buildup from drain pipes to help keep drains open, thus reducing malodors generated by rancid material. Will not boil or cause excessive heating in pipes.

Contains no acids or bleach so it is completely odorless when used and it's safe for plumbing fixtures and plastic pipes. It has a red dye in it for safety. We also have Lemon Scented and Clear.

Our customers love this product because it works quickly and doesn't cause an odor!

This product is on Pro-Line's GSA Contract
