Restore

RESTORE is a neutral synthetic restorer containing high quality acrylic floor finish that revives gloss and shines in one step. One of the realities of a floor finish is that it doesn't last forever, and at some point you need to strip the wax and apply a new coat. RESTORE is designed to extend the life of floor finish, yet keep floors looking "just waxed" between strippings. Simply apply this highly concentrated, non-yellowing formula with a mop, sponge, or sprayer. RESTORE is safe on all finishes and contains no soap, acid, ammonia, alkali, phosphates or other harsh chemicals. It will not streak, powder, or discolor the foundation floor finish. RESTORE is easy to use and since it does not attack the finish, it leaves floors shining bright and increases durability. Sweeping and vacuuming on a regular basis are a must when you have waxed floors in order to keep small bits of dirt that get dragged around on your shoes from creating excessive scratches that disperse light, and cause the floor to look dull and dirty. RESTORE will bring back that lost shine and luster to your flooring and will also remove black heel marks. Can be used on marble, asphalt tile, vinyl, Linoleum, ceramic tile, sealed wood, Terrazzo and rubber floors. One gallon will cover 4,000 square feet.

Great For Use On:

- ⇒ **Retail floors**
- ⇒ **Classrooms**
- ⇒ **Day care facilities**
- ⇒ **Hospitals**
- ⇒ **Industrial kitchens**
- ⇒ **Food service facilities**
- ⇒ **Airports**
