# Vanilla-Killa

*This vanilla scented insecticide leaves a pleasant vanilla aroma with no harsh chemical odors. Don't let this pleasant scent fool you, as VANILLA-KILLA has a powerful effect on crawling insects. VANILLA-KILLA not only drops bugs in their tracks, it establishes an invisible barrier that keeps bugs from coming back. This potent combination enables VANILLA-KILLA to create an insect defense system that lasts up to 3 months after only one application. Kills a wide variety of insects and pests, including but not limited to cockroaches, ants, spiders, booklice, boxelder bugs, centipedes, millipedes, earwigs, ground beetles, carpet beetles, crickets, dermestids, firebrats, fleas, silverfish, pillbugs, sowbugs, scorpions, ticks, waterbugs and more. Directed stream penetrates and concentrates product where you want it to go.*

*Here's what our customers are saying:*

- ◆ *We had a constant ant problem. I love this because there is no insecticide smell at all. I treat the baseboards and windows quarterly . The last time I used a vanilla air freshener the boss asked if I had just treated for ants. Ha, ha. The ants have not been back!*
- ◆ *I use this around our equipment shed for spiders. I also treat the concrete expansion joints for whatever may come in that way. We had a hard rain and the next day I had what I thought was a pile of dirt on the floor. Upon closer inspection it was a pile of dead ants that had tried to come in to stay dry. What a mess that would have been. I'm hooked.*
- ◆ *I didn't think we had an insect problem. A sales rep sprayed the baseboards in the lunchroom to demonstrate the smell. It smelled good, but we didn't need it. A couple days later I found a few dead beetles in the lunchroom where she sprayed. I bought some.*

**Great For Use On:**

- ⇒ **Baseboards**
- ⇒ **Door frames**
- ⇒ **Corners**
- ⇒ **Pipes**
- ⇒ **Storage areas**
- ⇒ **Sheds**
- ⇒ **Crawlspaces**
- ⇒ **Attic areas**
