Ice Off Arctic Blue

Areas of Use: Driveways, walkways, roads, streets, highways and more.

DESCRIPTION: ICE OFF ARCTIC BLUE Ice melter helps control ice and snow dependably, economically and safely, Works down to -15°C (+5°F). A basic blue ice melter that is economical and effective on snow & ice, while being very easy to use. ICE OFF ARCTIC BLUE provides instant traction due to its granular format with sharp edges. Immediately upon spreading, it works to prevent slips and falls. ICE OFF ARCTIC BLUE does not contain calcium chloride, so no oily residue is left behind to track into buildings. This ice melter may be applied at the beginning of a storm to prevent hard ice accumulations. ICE OFF ARCTIC BLUE is a product comprised of Sodium Chloride and Potassium Chloride that has a blue dye, making even distribution easy and obvious to the end user.

ADVANTAGES: 1) Effective to -15°C (+5°F). 2) Easy to use. 3) Instant traction. 4) Leaves no oily residue. 5) Requires no special handling. 6) Unique blue color.

SPECIFICATIONS:

Classification	Solid
Color	Blue granules
Odor	Odorless
Boiling point	2575° F
Solubility in water	35.7 g/100mL
