Nexgen Windshield Deicer Concentrate

Areas of Use: All windshield washer systems including car, bus, truck, light rail etc.

DESCRIPTION: Fights ice, frost and snow for maximum visibility, less warm-up time and safer driving. NEXGEN WINDSHIELD DEICER CONCENTRATE contains special detergents to remove dirt, grime, bugs and salt residue and leaves windshields clear and streak-free. This concentrated formula allows you to choose the most economical dilution for your weather conditions – while still assuring optimum performance. For summer use add 1 1/2 ounces to 1 gallon of water to make a washer solution. Depending on temperature dilution rates vary. For temperatures averaging 25°F use 1 part concentrate to 15 parts water. If temperatures average 10°F use 1:4, if temps are around -5°F use 1:2 and -20°F use 1:1.

ADVANTAGES: 1) Quickly penetrates ice and snow. 2) Provides better visibility for safer driving. 3) Cleans windshields in the summer, deices windshields in the winter. 4) Can be used all year long.
