Germ Be Gone

GERM BE GONE is a unique hand sanitizing wipe, combining a non-abrasive towelette that is skin friendly with antiseptic, conditioning agents and 70% alcohol. GERM BE GONE instantly kills and removes disease causing germs and bacteria from the skin with pre-measured and pre-moistened wipes to ensure measured release of formula to hands. GERM BE GONE is formulated with Aloe and Vitamin E to soften and condition skin with each application. GERM BE GONE should be used to supplement regular hand washing procedures. GERM BE GONE dries quickly, leaves no sticky residue, and hands feel fresh and conditioned. GERM BE GONE helps ensure personal protection from organisms that cause disease and sickness through cross contamination and can reduce hospital acquired infections. GERM BE GONE kills 99.9% of disease-causing germs and bacteria found on skin. Convenient wipe can be used to wipe hard to reach areas that harbor bacteria between the fingers and under fingernails.

GERM BE GONE can also be used on non-porous surfaces such as door handles, desks, phones, counter tops, keyboards, printer surfaces, escalators, elevators, railings, tool handles, slot machines, cash counting machines, etc.

Simply remove lid and discard inner seal. Pull wipe from the center of roll through the hole in the canister lid for easy dispensing. Keep cap over lid closed when not in use.

70 count canisters
