

# PRO-LINE

**Industrial Products**

## Ultra Pen

**ULTRA PEN has been formulated to quickly penetrate rust, corrosion and moisture. ULTRA PEN is a powerful, multiple action penetrant and protective shield. Excellent for removing parts, fasteners and mating connections. Leaves a protective film to prevent further corrosion. ULTRA PEN's four way action lubricates, penetrates, displaces moisture and prevents rust from forming. It has a unique ability to penetrate through standing water, allowing for use in wet and dry environment. Non-flammable.**

**Penetrating lubricants are extremely effective as cleaning agents. They can be used to remove grease, adhesives, tar, decals, glue and rust. This is because the fluid can be used as a solvent cleaner or degreaser for dissolving contaminants. Once the fluid has mobilized the residue, it can be easily wiped away using a wipe, cloth or light abrasive.**

**Ultra Pen original - Non-conductive to 30,000 volts, Not available in CA**

**Ultra Pen C - Non-conductive to 30,000 volts, compliant in all 50 states**

**Ultra Pen Cherry - Pleasant cherry scent makes it perfect for interior uses, compliant in all 50 states**
