Dumpster Magic

Strong odors can make a negative first impression on guests who visit or patronize your facility. Make sure that first impression is a good one by controlling strong odors. DUMPSTER MAGIC is an Industrial-grade powder that quickly and effectively deodorizes heavily contaminated areas such as dumpsters, elevator shafts, loading docks, trash compactors, garbage collection trucks and more. DUMPSTER MAGIC contains special odor-absorbing granules that also absorb liquids that might be present and causing additional odors. This powerful formula is infused with citronella to help minimize insect infestation problems with long-lasting performance. DUMPSTER MAGIC makes a great hot weather additive for trash dumpsters and collection areas to combat strong odors. 6 ounces per day will help eliminate residual odors that are at their strongest in hot or humid weather. DUMPSTER MAGIC is biodegradable, non-corrosive, acid-free and V.O.C. compliant. Simply sprinkle granules onto the cause of the odor or into any waste container or other odorous area, and on the top of added waste.

Great For Use In:

- ⇒ **Trash cans**
- ⇒ **Dumpsters**
- ⇒ **Trash chutes**
- ⇒ **Sand urns**
- ⇒ **Elevator shafts**
- ⇒ **Garbage collection areas**
- ⇒ **Anywhere else foul odors and flies are a problem**
