Bac Aide Ultra

DESCRIPTION: The BAC-AIDE ULTRA Drain Maintenance System provides a highly effective, biodegradable, bacterial grease-digesting treatment. BAC-AIDE ULTRA refills contain naturally occurring bacteria designed to treat drains on a time-metered basis, providing round the clock drain protection, odor control, and clean drains. BAC-AIDE ULTRA's billions of colony forming bacteria establish a biological grease eating barrier that helps keep pipes open and free flowing and the automatic feeding unit ensures a continuous supply of BAC-AIDE ULTRA. Biodegradable, non-toxic bacteria from our Industrial Drain Maintainer, digest fats, oil and grease, leaving behind only water and inert carbon. BAC-AIDE ULTRA helps avoid drain back-ups and reduces build-ups in grease traps, interceptors, and sewage ejectors. Odors are neutralized at the source by reducing grease.

Easy to change refills can be programmed from 30 to 90 days.

ADVANTAGES: 1) Battery operated so it can be put anywhere. 2) No harsh chemicals. 3) Completely biodegradable. 4) Reduced costs of snaking, jetting and pumping.

AREAS OF USE: governments, hotels, casinos, office buildings, hospitals, care facilities, institutions, restaurants, kitchens and more.

SPECIFICATIONS:

Classification	Liquid
Color	Dark Green
Odor	Characteristic
Flash point	None
pH	6.8-8.8
Solubility in water	Dispersible
Boiling point	100 °C / 212 °F
VOC Content	None
