

Bac Aide Island Fresh

Product #QBA500

Drain Maintainer & Deodorizer

BAC AIDE ISLAND FRESH is a natural solution of enzyme producing bacteria that gives instant and residual odor control. BAC AIDE ISLAND FRESH contains 6 strains at a concentration of a minimum of 200 billion colony forming units of specifically designed bacteria. BAC AIDE ISLAND FRESH is designed for malodors caused by dampness, mildew, mold, food waste, urine, fecal matter, vomit and many other types of organic waste. Helps to deodorize and maintain drain lines.

Areas of Use:

- Drains
- Grease Traps
- Septic Systems
- Lagoons
- Waste Treatment Plants
- Industrial Waste Systems
- Porta-toilets
- Recreational Vehicles
- Zoos
- Veterinarians
- Stock Yards
- Public Restrooms
- Carpets & Upholstery
- Any other place where drains and/or odors are a problem

Effective Against:

- Dampness
- Mildew
- Mold
- Food Waste
- Grease
- Oils
- Soap Scum
- Many other types of organic waste

Directions for Use:

General Odor Control: Spray directly onto the malodor and allow bacterial action to work.

Carpet Deodorizing: Mix 1/2 to 1 pint of product per gallon of warm water and apply to area. Allow to remain moist for 30 minutes.

Grease Traps: Pour directly into pipe or sink closest to trap. Push down with a cup of lukewarm water. Use 4-5 ounces daily for traps less than 20cubic feet. For larger traps use 8-10 ounces daily.

Specifications:

Classification	Liquid bacteria
Color	Opaque white
Odor	Pleasant Mint
Boiling point (liquid only)	212°F
Solubility in water	100%
Flammability	Non flammable
