

Battery Saver

Product #ABS496

Battery Terminal Protector

Battery Saver is a non-tacky, flexible coating that provides long-term corrosion protection for battery terminal posts, housings, cables ends, and supports. Curtails leakage and extends battery life. Provides superior acid-alkali resistance. Protects batteries in storage or in use.

Areas of Use:

- Automobiles
- Buses
- Taxis
- Trucks
- Aircrafts
- Boats
- Golf Carts
- Tractors
- Trailers
- Postal Vehicles
- Forks Lifts
- Battery Back Up Systems
- Construction Equipment
- Agricultural Equipment
- Marine Equipment
- Any equipment requiring acid batteries

Effective Against:

- Corrosion
- Acid
- Moisture
- Dirt
- Grease
- Oil

Directions for Use:

Shake this product well before and during use. Coating is most effective if surface is first prepared clean and dry. Spray an even coat over entire surface. For more severe conditions, a second coating can be applied within a few minutes. Allow several hours to set up to tack-free film. Coating ma be removed with mineral spirits.

Specifications:

Classification	Aerosol
Color	Dark Brown
Odor	Solvent
Solubility in water	Not available
Flammability	Extremely Flammable spray
