

Battery Terminal Cleaner

Product #ABC121

Battery Terminal Cleaner

Battery Terminal Cleaner cleans corrosion and neutralizes acids on battery terminals and cables. This product contains an acid indicator that changes color in the presence of acid to help detect leaks. It leaves a protective coating to eliminate additional corrosion buildup.

Areas of Use:

- Automobiles
- Buses
- Taxis
- Trucks
- Aircrafts
- Boats
- Golf Carts
- Tractors
- Trailers
- Postal Vehicles
- Forks Lifts
- Battery Back Up Systems
- Construction Equipment
- Agricultural Equipment
- Marine Equipment
- Any equipment requiring acid batteries

Effective Against:

- Corrosion
- Damage to cable & terminals

Directions for Use:

Shake well before using. Spray on cables, clamps, terminals, brackets, housings and entire battery surface. (Be sure cell covers are tightly sealed). Product will spray out light yellow and turn red in the presence of acid. Allow foam to work for several minutes, then flush off with water. Follow with a second application. If solution still turns red, acid neutralization process is not complete. Allow to set then repeat. If spray foam remains yellow... all acid has been neutralized.

Specifications:

Classification	Aerosol battery cleaner
Color	Yellow
Odor	Mild ammonia
Solubility in water	Not available
Flammability	Extremely Flammable spray
