

Belt Dressing

Belt treatment

BELT DRESSING is an aerosol spray designed to increase power and performance by reducing slippage of all types of power belts including round, flat or V. Compatible with fabric, leather or rubber belts. Reduces belt slippage which yields increased equipment efficiency. Helps clean and prolong life of belts and significantly reduces down time.

Areas of Use:

- "V" type
- Flat
- Round
- Leather
- Rubber
- Fabric
- Synthetic
- Useful on all types of belts

Effective Against:

- Slippage
- Environmental Conditions

Directions for Use:

Note: In many instances protective guards must be removed in order to apply belt dressing properly. In such case please use extreme care to prevent accidents. Be sure to replace guards after treatment. Features a 360° valve that allows spraying with can held in upright or inverted position. Apply a little at a time to inner surface of belt while machinery is in motion. Spray using a back and forth motion until the surface is complete wet. On most belts, the spray may be applied to the sheaves, pulleys or directly onto the belt itself. Repeat occasionally to maintain full power and to optimize belt life

Specifications:

Classification	Aerosol
Color	Not available
Odor	Not available
Solubility in water	Not available
Flammability	Extremely Flammable spray
