

Enviro Sorb

Bio-remediating Absorbent

Product #PES345

A fast acting, all natural absorbent containing hydrocarbon bio-remediating microorganisms. Encapsulates the spill, and will not leak out. Converts hydrocarbons into simple forms of carbon dioxide and water. ENVIRO SORB absorbs at least 8 times more than most clay-based sorbents. An environmentally sensitive product. Not for use on acids and/or caustics.

Areas of Use:

- Industrial Plants
- Refineries
- Vehicle Maintenance Garages
- Machine Shops
- Golf Courses
- Cemeteries
- Hospitals
- Apartment Complexes
- Hotels
- Shopping Centers
- Municipalities
- School Districts
- anywhere else chemical spills occur

Effective Against:

- Chemical Spills
- Oil Spills
- Water Spills

Directions for Use:

To contain and /or absorb a liquid spill, first spread a liberal amount of Enviro Sorb around the perimeter of the spill. Generously cover the spill with Enviro Sorb. Allow the product to fully contain the liquid, then pick up and store in a proper storage container. Not for use on acids or caustics.

Specifications:

Classification	Powder
Color	Brown
Odor	None
Solubility in water	Insoluble
Flammability	Not established
