Mud Away

Silt & Sand Removal

Product #GMA149

MUD AWAY is a concentrated liquid designed to break up and dissolve clusters of mud, silt, sand, sediment, sludge and clay from drain lines. Chemically breaks up hardened matter into small particles that enables them to flow through the drain. MUD AWAY is excellent for use in main drain lines, and in beach areas where sand is a problem.

Areas of Use:

- Municipalities
- Schools
- Hospitals
- Restaurants
- Apartments
- Day Care Centers
- Recreation Areas
- Bus Stations
- Airports
- Railway Stations
- Nursing Homes
- Hotels
- Motels
- Golf Courses
- Cemeteries

Effective Against:

- Mud
- Silt
- Sand
- Sediment
- Sludge
- Leaves
- Clay

CAUTIONS: Avoid contact with eyes, skin, and clothing. For eye contact: flush with water for 15 minutes while holding the upper and lower lids open. If irritation persists, see a doctor immediately. For skin contact: wash affected area well with soap and water. If irritation persists see a doctor.

Directions for Use:

Strom Drains & Sanitary Sewers: 1' pipe - Mud Away can be poured into a manhole or sewer opening at the rate of 1 gallon per 100 ft. See label for other size pipe size.

Filtration Bed: Spray Mud Away over at a rate of 1 quart of concentrate for each 500 to 1000 gallons of silt-filled water. If dripped into waste stream, apply sparingly at rate of 2-5 ppm.

Ponds/Lagoons: 2-5 gallons of Mud Away per 1,000,000 gallons of capacity will provide a long-lasting treatment. (Reduce muddiness)

Specifications:

Classification	Liquid dispersant
Color	Clear to hazy
Odor	None
Boiling point (liquid only)	212°F
Solubility in water	100%
Flammability	Non flammable
