Joy To The World

JOY TO THE WORLD is an aluminum complex grease, specially formulated for the food process and beverage industry, and is so versatile it has many other uses. JOY TO THE WORLD provides excellent extreme pressure and anti-wear protection, and can be used over a wide temperature range. JOY TO THE WORLD is resistant to equipment wash downs, steam, acids and caustic solutions. JOY TO THE WORLD is formulated to meet FDA and USDA requirements where incidental food contact may occur. This versatile grease has high viscosity to cling to vertical surfaces so it is great for use on hospital beds where there is a chance of patient contact. Also has excellent adhesion properties to resist throw off, resists water and provides rust corrosion so it can also be used on lawn equipment that may contact plants and grasses and in water treatment applications.

This industrial strength food grade grease has no odor, no taste and is totally non-toxic. JOY TO THE WORLD does not affect rubber or plastics and is safe at temperatures ranging from -40° F to 550°F once cured; temperatures above 400° may require reapplication.

NSF rated H-1 status.

Great For Use In:

- ⇒ **bakeries**
- ⇒ **bottlers**
- ⇒ **breweries**
- ⇒ **canneries**
- ⇒ **hospitals**
- ⇒ **meat processors**
- ⇒ **food processing**
