Cdiff Tablets

Product #BCD160

Cdiff™ Disinfectant Tablets are bleach free and utilize an active ingredient called sodium troclosene. Sodium troclosene is much more stable than sodium hypochlorite, and releases chlorine at a much slower rate. This means that Cdiff™ Disinfectant Tablets produce a solution that maintains disinfecting power for 7 days, in a sealed container and 24 hours in an open container, vs. bleach solutions that become inactive after a day. In solution, sodium troclosene has a pH of around 6.0, this mild pH means that Cdiff™ Disinfectant Tablets will be much less aggressive on surfaces, including floor finishes.

Areas of Use:

- Medical Offices
- Dental Offices
- Clinics
- Day Care Centers
- Nursing Homes
- Veterinary Clinics
- Hotels
- Casinos
- Highrise Buildings
- Apartments

Effective Against:

- C. diff
- MRSA & GRSA
- Staphylococcus Aureus
- Salmonella Enterica
- Klebsiella Pneumonia
- Canine Parvovirus
- Escherichia Coli O157:H7
- Feline Calicivirus
- Staphylococcus Epidermidis
- Canine Distemper Virus
- Norovirus

Directions for Use:

For directions please read the entire label and use strictly in accordance with precautionary statements and directions.

Specifications:

Classification	Tablet
Color	White
Odor	Characteristic
Solubility in water	100%
Flash point	Not available

Certified 100% Women-Owned Small Business

Dedicated to Integrity • Reliability • Quality Products • Friendly Service

Our Products are Made in the USA and we Proudly Support Veteran Endowments
