Shiny Zinc

shiny galvanized coating

Product #ASZ124

SHINY ZINC is an aerosol spray and is designed to protect iron and steel surfaces from rust and corrosion. Its high zinc content assures maximum protection on metal surfaces. Dries quickly to a hard film containing 93% zinc dust. Provides a two-way protection, first with the high zinc content protective coating, secondly with true galvanic action. Compares to a hot dip galvanize when applied as a 3 mil thickness. Formulated for use in presence of moisture, salts and acids. Meets ASTM A780 & D520.

Areas of Use:

- Iron
- Steel
- Metal
- Bus barns
- Refineries
- Pipe yards
- Oil rigs
- Industrial plants
- Automotive bodies
- fences
- metal fences
- metal buildings

Effective Against:

- Rust
- Corrosion

Directions for Use:

Starting with a clean and dry surface, shake can for full 60 seconds, and while holding the can 10-12 inches, spray surface in a thin, even coat until surface is completely covered. Allow 5-10 minutes before handling.

Specifications:

| | |
|---------------------|---------------------------|
| Classification | Aerosol Solvent |
| Color | Clear liquid |
| Odor | Characteristic solvent |
| Solubility in water | Not available |
| Flammability | Extremely Flammable spray |
