### Nex Tile

#### Acoustical Tile Restorer

NEX TILE is an acoustical ceiling tile restorer, designed to restore the appearance of stained or discolored off white ceiling tiles. NEX TILE is not paint, but rather a unique clay-resin system, which allows instant restoration of stained tiles without sealing the pores (the way paint would). NEX TILE will not only improve the appearance, but will also enhance the acoustic sound absorption quality. NEX TILE is excellent for use on both smooth and rough surfaces, and will not sag or warp. NEX TILE is packed with interchangeable spray heads, which allows for vertical or horizontal spraying. NEX TILE helps to extend the practical life of ceilings, thereby saving maintenance time and money.

Available in White and Off White

#### Areas of Use:

- hotels
- restaurants
- office buildings
- motels
- day care facilities
- apartments
- hospitals
- schools
- condominiums

#### Effective Against:

- water stains
- smoke discoloration
- other stains

#### Directions for Use:

SHAKE CAN VIGOROUSLY BEFORE AND DURING USE

Replace button with large vertical actuator for application on installed tile.

When possible, remove tiles to a well ventilated area before application.

Shake can vigorously until agitator ball rattles freely. Continue shaking for at least one minute. Shake occasionally during use. Hold can 8 to 10 inches from tiles to be coated. Apply with a sweeping motion using several thin coats. Allow each coat to dry for at least two minutes before applying next coat. If coating runs, can is too close to surface. Feather edges into the remainder of the ceiling by holding can further away during application.

IMPORTANT: After application, clean valve by turning can upside down and applying short bursts to clear actuator.

Product #ATW321

**NEXGEN**  
BRAND

#### Specifications:

Classification	Aerosol
Color	White or Eggshell
Odor	Ethereal
Flash point	110°F
Flammability	Non-flammable
Solubility in water	Insoluble
Propellant	Isobutane-propane
Spray pattern	Varies with valve used
