Pocket San Sanitizer

Product #BPS485

POCKET SAN is a uniquely formulated skin sanitizer and conditioner. POCKET SAN instantly sanitizes hands without water or towels. POCKET SAN is 99% effective against most common bacteria, and is ideal for everyday use. POCKET SAN penetrates into hard to reach areas that harbor bacteria, and then kills them off and conditions the skin at the same time. POCKET SAN contains a special blend of emollients and moisturizers, including aloe gel, to leave hands smooth, soft and conditioned without any lingering antiseptic odor. The moisturizing agents prevent the skin from being dried out. POCKET SAN helps prevent bacterial transfer, thereby reducing transfer of infections and diseases. POCKET SAN dries in about 10 seconds, leaving the hands with a fresh, citrus scent. POCKET SAN is not a substitute for washing hands, rather POCKET SAN should be used in conjunction with hand cleaners to complete all your hand care needs.

NEXGEN
BRAND

Areas of Use:

- hospitals
- schools
- nursing homes
- daycares
- cashiers
- veterinarians
- labs
- emergency response teams
- police and fire personnel
- correctional facilities
