Skin Shield

Protective Hand Barrier Cream

SKIN SHIELD is specifically designed to be applied to exposed skin and protect it from ink, acids, alkalis, grease, tar, oils, chemicals, solvents, resins, plastics, corrosive salts and other skin irritants. SKIN SHIELD forms a barrier to prevent grease, paint resins, soil and ink from penetrating the skins pores and creases. Keeps skin cleaner, minimizing cleanup time. For use in the following industries: Petroleum, automotive, printing, aircraft, plastics, metal, paint, chemical, landscaping and research laboratories. For use by anyone who needs to protect their hands while maintaining dexterity; Silkscreen operators, printers, laboratory personnel, warehouse personnel, construction workers, landscapers and heavy machinery operators. SKIN SHIELD is easy to apply and washes off with soap and water. Makes clean up time faster. Lubricates while protecting skin areas.

Areas of Use:

- printing plant
- chemical plants
- railroad yards
- oil rigs
- industrial plants
- paint departments
- ship yards
- air and truck transportation terminals

Effective Against:

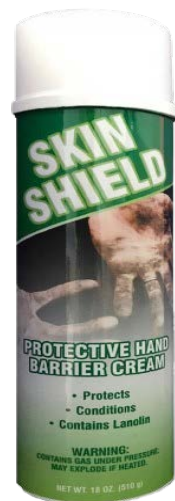

- ink
- acids
- alkalis
- grease
- tar
- oil
- chemicals
- solvents
- resins
- corrosive salts
- other skin irritants

Directions for Use:

SHAKE WELL

Apply a generous amount into hands and rub well into skin, covering all areas including around and under fingernails. Apply to any skin surface where protection is desired. For removal, apply soap and work well prior to rinsing. Reapply when desired.

Product #ASS902
