

Stomp

Wasp & Hornet Spray

STOMP is an EPA registered non-chlorinated wasp and hornet spray that has a very high dielectric strength of 40, 100 volts for use near power lines, transformers and other areas where conductivity is a concern. This product can be used indoors in attics and other places where nests are built or outdoors on hornet, wasp and yellow jacket nests. The 15-20 foot spray range allows the user to remain a safe distance away during application. It is best to treat the nests in the evening when insects have returned to the nest. Simply spray the nest until it is soaked with the spray. Stomp's high dielectric strength of 40,100 volts is verified by ASTM test method D-877. For use in and around schools, hospitals, industrial plants, tank farms, warehouses, attics, basements and patios.

Areas of Use:

- Eaves
- Attics
- Chimneys

- Overhangs
- Trees
- Cracks
- ırns Bush
- Crevices

Effective Against:

Wasps
 Hornet
 Yellow jackets

Advantages:

- 1. Instantly knocks down the insect on contact
- 2. Quickly kills after initial knockdown
- 3. Long range power stream carries effectively for up to 20 feet.
- 4. Non-conductive up to 40,100 volts.
- 5. May be used indoors (such as in attics where nests are built) as well as outdoors.

Directions for Use:

It is preferable to apply this product in the evening after all the insects have returned to the nest. aim valve opening at the nest and depress button, continuing to spray until the nest is soaked with the spray. Repeat as necessary.

Product #AST715
