Wonder Pad

Absorbing Pad

WONDER PADS are 100% all natural fiber absorbent pads, made from recycled waste products. WONDER PADS have a high density to absorption ratio, and are able to absorb and hold up to 25 times their own weight in oils, solvents, paints and most water based liquids. In fact, each WONDER PAD will absorb almost a full gallon of spilled material. WONDER PADS are not recommended for use on acids and bases. WONDER PADS are excellent for drip containment, or for picking up existing spills. WONDER PADS are all natural, easy to use, and work like a sponge, completely picking up the spill and leaving the area dry with no slippery residue. WONDER PADS are environmentally sensitive, biodegradable, non-toxic and work wonders for spill control.

Available in white (oil only) and gray (universal) absorbency.

Areas of Use:

- Industrial Plants
- Refineries
- Utility Companies
- School districts
- Gold courses
- Machine Shops
- Vehicle maintenance garages
- Engineering departments

Effective Against:

- Oil Spills
- Solvents
- Paints
- Water based liquids

Advantages:

- 1) Instantly picks up most spills, leaving the area clean, dry and residue free.
- 2) An all natural fiber with exceptional absorbency capabilities.
- 3) Immediately picks up spills and any odors associated with the spill.
- 4) Cost effective to use as is absorbs and holds 25 times its own weight.
- 5) Provides protection for potential slip areas.
- 6) Safe to use on most spills, such as solvents, paints, oils, coolants, antifreezes, transmission fluids and more.

Product #SWP458P

NEXGEN
BRAND

Specifications:

Classification	Solid material pad
Color	White or Gray
Odor	None
Flash Point	>180°F
Composition	Recycled textile
Biodegradability	100% (in raw form)

Certified 100% Women-Owned Small Business

Dedicated to Integrity • Reliability • Quality Products • Friendly Service

Our Products are Made in the USA and we Proudly Support Veteran Endowments
